

# Dobrushin Scholarship report (2017)

## Renat Abugaliev

Research seminars:

- Geometric structures on manifolds
- Weekly seminar of the HSE laboratory of algebraic geometry
- Weekly seminar of Iskovskikh

Talks:

- "Double projection in dimension 4" at the seminar of Iskovskikh"
- "Bloch conjecture" at the seminar "Geometric structures on manifolds"
- "Geometry of the Horrocks-Mumford bundle" at the seminar "Geometric structures on manifolds"

TA:

- Algebraic geometry in HSE by Vladimir Zgoon
- Algebra in IUM by Evgeny Smirnov
- Complex analytic spaces in IUM/HSE by Misha Verbitsky
- Complex analysis IUM by Petr Pushkar
