1. T. A. Garmanova, I. A. Sheipak. An explicit form for extremal functions in the embedding constant problem for Sobolev spaces. *Trans. Moscow Math. Soc.* 2019, 189-210, <https://doi.org/10.1090/mosc/292>
2. T.A. Garmanova, I.A. Sheipak. Properties of Extrema of Estimates for Middle Derivatives of Odd Order in Sobolev Classes. *Dokl. Math.* **100**, 367–371 (2019). <https://doi.org/10.1134/S1064562419040148>
3. T.A. Garmanova, I.A. Sheipak. On Sharp Estimates of Even-Order Derivatives in Sobolev Spaces. *Funct Anal Its Appl* **55**, 34–44 (2021). <https://doi.org/10.1134/S0016266321010044>
4. T. A. Garmanova. Estimates of Derivatives in Sobolev Spaces in Terms of Hypergeometric Functions. *Mathematical Notes*, 2021, 109:4, 527–533. <https://doi.org/10.1134/S0001434621030214>
5. T. A. Garmanova, I. A. Sheipak, “Orthogonality Relations for the Primitives of Legendre Polynomials and Their Applications to Some Spectral Problems for Differential Operators”, *Mat. Zametki*, **110**:4 (2021), 498–506; *Math. Notes*, **110**:4 (2021), 489–496
